1. THE ICON PROGRAMME

1.1. DESCRIPTION

The **InterContinental Academic Exchange Programme (ICON)** finds its origin in long-lasting collaborative links between the SGroup network, its members, associate members and institutions located in strategic regions and countries for SGroup and also linked to the Think Tank Academy.

As part of this mobility programme, the **academic and administrative staff of full-member European Universities** of the SGroup can apply for a scholarship to conduct a short mobility period in a partner institution of their choice outside Europe.

Additionally, the **academic and administrative staff of associate-member Universities** of the SGroup can apply for a scholarship to conduct a short mobility period in one of the SGroup European members.

The participants and the activity programmes financed by the ICON programme must represent the quality standards and values inherent to the SGroup Network.

1.2. AIMS AND OBJECTIVES

The aim of the ICON programme is to promote, facilitate and/or strengthen collaboration between SGroup institutions and their overseas partners, thereby contributing to the SGroup's commitment to expanding collaboration opportunities in education and research through the transfer of knowledge and the development of strategic alliances.

The strategic objectives of the ICON programme are the following:

- Facilitate collaboration in research and education between EU and strategic countries and regions, namely the Think Tank Academy regions, as well as between SGroup European members and Associate members;
- Encourage contact-making leading to the development of joint projects that can be submitted for EU-funding and other relevant funding schemes and programmes;
- Promote new, or reinforce existing, intercontinental partnerships;
- Support the professional development of staff and the internationalisation strategies of SGroup institutions;

- Strengthen links between institutions leading to the establishment of co-supervision of thesis, double/ multiple or joint degrees;
- Contribute to the SGroup’s goals of fostering university excellence in education and research and promote engagement with educational and societal needs in a creative and innovative way.

2. CALL FOR APPLICATIONS FOR 2025

The ICON programme for the year 2025 will provide **11 grants** for applications from **academic** and/or **administrative staff**.

The amount of **each grant is maximum 3.000 EUR** (final amount will be calculated upon proof of actual expenses).

Co-financing from other sources is eligible as long as the **principles of co-financing**, and the correspondent prohibition of double financing, is respected (meaning that costs for the same activity cannot be funded twice).

2.1. CALL PERIOD

- 2) Applications shall be **evaluated by each home University** according to its' own internal criteria and priority standards as long as it also considers the following criteria and

- 3) Since each European full-member of SGroup cannot apply for more than one grant per region and submit no more than two applications, if more than one application for each is submitted, Liaison Officers are required to make a ranking among the applications from their institution. Such selection must follow predetermined and widely communicated priority standards so that each potential candidate is aware of all the applicable criteria before he/she applies.
For associate members, only one application to a European full-member institution can be submitted and financed, per year;
